

AMIT RAJPUT

Technical Architect | Experienced and Expert Engineer | Full Stack Architect

Strategic and dependable **Software Architect** with **15+ years of experience** in designing and deploying scalable, high-performance distributed systems. Expert in **Full Stack Development** utilizing **.NET Core, Angular 18**, and **Cloud Computing (Azure)**. Proven track record in integrating **Generative AI** and **Machine Learning** into enterprise financial products. Adept at leading cross-functional teams to exceed technical and business requirements through robust system architecture and process optimization.

Work Experience

Fiserv India Pvt Ltd
As Technical Architect

March 2014 – March 2026

Solution & System Architecture, Technology Selection, Development Standards & Best Practices, Performance Optimization, Security & Compliance, Team Leadership & Mentoring, Stakeholder Collaboration, Modernization & Innovation.

- Served as end-to-end Technical Architect across three flagship fintech products (DNA Core Banking, CRMBI) serving 400+ enterprise clients across the US and Canada.
- Generative AI integration using OpenAI / Copilot and N8N automation.
- Defined development standards, architectural blueprints, SRS/TDD documentation, and security frameworks (OAuth 2.0, OpenID Connect, JWT) adopted org-wide.
- Mentored a team of 6 developers, conducted code reviews, Build Automation, QA testing and Delivery.
- **Architected and delivered scalable, event-driven microservices systems improving system performance, reducing latency, and enabling high-throughput processing using Kafka and RabbitMQ.**

NEWGEN

Newgen Software Technology
As Sr Software Engineer

December 2011 – Feb 2014

- Developed the O2MS (Omni Output Management System) product for Citi Bank (US and EMEA), a mission-critical enterprise output management platform used across diverse banking platforms.
- Built unified output processing engine consolidating data from third-party applications and multiple databases into a single, intelligent distribution and printing framework.
- Delivered web services (C#, ASP.NET, WCF), Oracle 10g integration, and SSRS reporting modules within aggressive sprint timelines using Agile methodology.

AVANTHA
TECHNOLOGIES

Avantha Technologies
As Software Engineer

June 2011 –December 2011

- Developed the Health Information Management and Auditing System (HIMAS), enabling cross-hospital encounter data transfer via ADT, HL7, and 837 EDI standards.
- Built SSRS-based performance dashboards at Supervisor, Client, and Management levels; integrated Trucode for compliant billing and medical coding across disparate hospital systems.

ISSC
as Software Engineer

April 2010 – June 2011

- Contributed to enterprise application development using C#.NET, ASP.NET, and SQL Server 2008; gained foundational expertise in MVC architecture and stored procedure optimization.

Key Projects

1. Meridian – Cloud-Native ERP for Utility Industry

Client: Meridian (200+ Clients, US)

Period: January 2025 – Present

Role: .NET Architect (Solution Design, Architecture, Cloud Infrastructure, AI Integration)

Tech Stack: C#, ASP.NET Core, Angular 18, Microservices, Azure OpenAI, SQL Server, REST API, Kubernetes

- Architected a mission-critical, cloud-native ERP suite for the utility sector encompassing CIS billing, financial management (FIS), GIS-based field operations, staking, materials, assets, inventory, and fleet management.
 - Reduced system deployment time by 40% by introducing Kubernetes-based auto-scaling and GitLab CI/CD pipelines, enabling zero-downtime releases for 300+ cooperative clients.
 - Integrated Azure OpenAI for intelligent query resolution and N8N for workflow automation, cutting operational support tickets by 30%.
 - Improved API response time by 45% through strategic caching (Redis), query optimization, and async processing patterns across microservices.
-

2. CRM & Business Intelligence Platform

Client: US and Canada (250+ Clients)

Period: March 2022 – Present

Role: .NET Full Stack Architect (Design, Development, Security, GenAI POC)

Tech Stack: C# .NET Core, Angular, Oracle 19c, Azure, REST API, Azure OpenAI, OpenID Connect/OAuth 2.0

- Led architecture and development of a Fiserv CRM & BI suite featuring intelligent reporting, query builder, campaign management, and AI-powered activity tracking for 250+ financial institutions.
 - Implemented OpenID Connect and OAuth 2.0 security framework, achieving ISO 27001-aligned compliance across client deployments, reducing security incidents by 60%.
 - Delivered GenAI-powered query optimization chatbot.
-

3. DNA Core Banking & Insurance Platform

Client: US and Canada (400+ Clients)

Period: March 2014 – February 2022

Role: Tech Lead – Development (System Design, Code Review, Mentoring, Performance Tuning, Agile)

Tech Stack: C# .NET, Angular JS, Oracle 19c, SQR, REST API, Azure

- Served as Tech Lead on Fiserv's award-winning DNA core account-processing platform, serving 400+ banks and credit unions and managing millions of real-time customer account relationships.
 - Led a team of 10 developers through full SDLC cycles; established coding standards, sprint ceremonies, and risk management protocols that reduced production defect rate by 35%.
 - Optimized critical Oracle 19c stored procedures and SQR batch jobs, improving nightly processing throughput by 40% and reducing batch window from 6 hours to 3.5 hours.
 - Integrated eSignature, biometric (photo ID) authentication, and security enhancements into the DNA open architecture, reducing onboarding friction by 25% for end users.
-

4. Health Information Management & Auditing System.

Client: US and Canada

Role: Software Engineer – Development (System Design, Code Review, Monitoring, Performance Tuning, Agile)

Tech Stack: C#.NET, ASP.NET, Web Service, Sql Server 2008, SSRS, Crystal Report.

- Design, develop, and maintain scalable software applications
 - Write clean, efficient, and well-documented code.
 - Participate in system architecture and design decisions
 - Debug, troubleshoot, and resolve software defects.
-

POSTMAN

API & Backend Architecture

Distributed Systems & Msg

Gen AI & Machine Learning

Modern Web & Frontend

Cloud & DevOps

Data & Storage

: C#.NET/ASP.NET Core, RESTful APIs, Microservices, gRPC, Node.js
 : Docker, Kubernetes, Event-Driven Architecture, Apache Kafka, RabbitMQ, gRPC, API.
 : Prompt Engineering, RAG, MCP, ML.NET, N8N, Workflow Automation.
 : Angular, React, HTML5, CSS3, Responsive & Component-Based Design
 : Microsoft Azure, CI/CD Pipelines, Docker, Kubernetes, GitHub Actions, Jenkins.
 : SQL Server 2022, Oracle 19c, PostgreSQL, MongoDB, Oracle 19c, Redis, Elasticsearch

Skills

- 15+ years of experience as a Full Stack Architect specializing in C#, ASP.NET Core, Node.js, Angular 18, Microsoft Azure, RESTful APIs, Microservices Architecture, Cloud Computing, CI/CD pipelines, Kubernetes, Docker, GitLab, SQL Server, and Oracle PL/SQL.
- Strong expertise in MVC and Entity Framework architecture, clean code practices, performance optimization, and designing scalable, robust, and maintainable systems using CQRS, microservices, distributed databases, and event/domain-driven architectures.
- Advanced proficiency in modern AI technologies, including Transformers, Large Language Models, Retrieval-Augmented Generation, agentic AI, MCP, vector databases, and fine-tuning models to build intelligent, production-grade solutions.
- Hands-on experience in image processing, object detection & recognition, biometric systems, and hardware integration using OpenCV and VC++.
- Highly self-driven, proactive, and outcome-oriented professional with the ability to navigate ambiguity and independently drive clarity.
- Strong ownership mindset with end-to-end accountability and a proven track record of leading and influencing cross-functional teams.
- Committed to enhancing productivity, efficiency, and continuous improvement through strategic adoption of AI-driven solutions.

Certification

- Software Architect : <https://www.udemy.com/certificate/UC-b70d4d4b-ec57-4de2-bac0-ba3d1afb3e25/>
- Model Context Protocol : <https://www.udemy.com/certificate/UC-77abea52-9864-45e8-aede-86e414182425/>
- .NET Core MVC : <https://www.udemy.com/certificate/UC-e3cf64ee-fc17-4102-93df-b1723a2bb903/>
- Angular 18 : <https://www.udemy.com/certificate/UC-d62aa6e5-6332-4c38-ab52-f4d9b04ab417/>
- JQuery : <https://www.udemy.com/certificate/UC-150cae67-453d-43cf-baab-9f3d8c6e4211/>
- Python : <https://www.udemy.com/certificate/UC-c31682ad-a7e4-4f51-8338-6147c03ef334/>
- Microservices : <https://www.udemy.com/certificate/UC-9d315c6d-e89f-40cb-a460-844814818c8f/>
- Microservice with RabbitMQ/Kafka : <https://www.udemy.com/certificate/UC-462af585-5695-4762-8b8d-35c41dc9558f/>

Education

- Master in Computer Application (MCA) from "Hindustan Institute of Management & Computer Studies, Farah, Mathura : (74.0%).
- Bachelor Degree (BSc) From APJ Abdul Kalam University, Agra : (68.6%)
- Post Graduate Diploma in Computer Programming, PGDCP (73.5%)
- Post Graduate Diploma in Desk Top Publishing, PGDTP (73.0%)
- Diploma in Computer Application, DCA (74.0%)
